Beautiful Free Book.

A most beautiful and valuable book of 70 pages with illustrations and statistics concerning winter resorts in the South, hotel rates and much other important information, has just been issued by the Queen & Crescent Route and of these publications. The book at all dealers. is in the nature of a directory of all the important places in Florida, Alabama, the Carolinas, Lou-Jeorgia, Cuba and the Bahama Islands, with generous illustrations of the more important resorts and points of interest. Among the numerous halftone likenesses are those of High Bridge, the incline at Lookout Mountain, Battery Park Hotel, Biltmore and interesting Florida and Cuban scenes and hotels. The cover design is the reproduction of a scene on the East Coast of white ointmen',

Florida and depicts in realistic fashion the ocean waves and steamers in the distance and the palmettos and vegetation in natural colors on the shore-the latter being characteristic of the perpetual climatic conditions of that charming country. A large outlay of money was required in the production of this book, which was issued for the convenience of the patrons of the Queen and Crescent Route. Parties anticipating a trip to the South this winter will be cheerfully supplied with a copy of the book free of cost by dropping a postal card to W. A. Beckler, General Passenger Agent, Gueen and Crescent Route, Cincinnati, Ohio.

interest what you have to say about good roads in Powell county, and I do hope that each subscriber to your valuable little paper have been doing the same thing. It is worth reading, and thinking about too. Think what it means to your home, your neighbor's home, the church, the school, the store, your neighborhood, the traveler who chances to pass through our county, in fact, the all important thing necessary to the up building of our county. This being the fact, farmer, let Bowen, Jr., Sheriff, has been us try as hard this good year to turned over to the bonding comhave good roads all over our county as we have tried for the has employed A. It is small, but, nevertheless, it publishes lots of in a wagon or buggy to visit your neighbor, or to go to town shoping, or to go to school, or to church, or to the graveyard or wherever you may, with graded roads you are safe, pleasant and happy, with roads like we have now we start away miserable, go our round trip feeling the same way and often come back home

The Fiscal court has directed me to proceed along this line and see that all fences are moved back out of the county roads, and I now serve notice on you to that effect that in repairing your fences along public county roads this spring and by May 15th you had better give us our 30 feet. If not the overseer with his hands will remove it for you. Do not wait to see if your neighbor puts his fence back but all of you do it as good citizens. Don't be stubborn and wait for the strong arm of the law to make you do, but all neighbors go hand in hand, begin early in the spring and make a good high broad 30 feet road with a good ditch on either side clean through your neighborhood and your humble servant will do any and every thing in his power to assist you in your good work, and will see that those few that lives in each community who don't want any road nor anything else puts in full time on the road or with George Stephens in the county jail. Since these hard times have met us face to face, George don't feed as well as usual. We must have good roads this good year. Yours, this good year.

Our City Taxes.

There seems to be great confusion among the city officials and taxpayers of Clay City about the tax due the city, many taxpayers claiming they have receipts for certain years. The ways. They cause a man to tax for the current year is always made out on the assessment of the previous year. A Good Farm Paper.

Every farmer should have a good farm paper, and the Times knows of none to recommend more highly than the Inland Farmer of Louisville, Ky. It comes each week and deals with subjects and crops grown in this latitude and under similar conditions existing with our own farmers. It is, in fact, the home farm paper.
